

St. Martin Rice Production Meeting

Tues. 2/9/2010 6 pm

by [Natalie Hummel](#)

A rice production meeting will be held at the [St. Martin Extension office](#) in Breaux Bridge. Each speaker will present on their topic for 15 minutes.

The agenda follows:

Dr. Linscombe	Varieties
Dr. Saichuk	Cultural practices
Dr. Webster	2010 weed control recommendations
Dr. Harrell	Fertilizer recommendations/chicken litter
Dr. Groth	Disease control
Dr. Hummel	Insect control/problems encountered in 2009
Dr. Guidry	What can farmers expect to see in the market for 2010

I will be speaking about the rice water weevil demonstration, the new cruiser seed treatment and colaspis in rice. I have found that Dr. Harrell's presentation on chicken litter is particularly interesting.

Following the meeting a meal will be served. Hope to see some of you there.
