

# Put Rage™ D-Tech herbicide in Your Burndown and Smoke It!

Rage™ D-Tech herbicide will soon be available to help you prepare fields for their real purpose, growing crops such as corn, soybeans, sorghum, and small grains, not weeds. Plus, you can keep fallow fields clean. Rage D-Tech provides consistent control of annuals and other tough broadleaf weeds along with application flexibility in burndown programs for corn and soybeans. You get an economical way to burndown a broad-spectrum of broadleaf weeds such as marestalk, henbit, mustards, bindweed, waterhemp, smartweed, dandelion, lambsquarters, Shepherds-purse, ragweeds and many others. Because Rage D-Tech works fast, soils warm up and dry down sooner and you get to plant earlier to maximize yield potential.

### Control These Tough Weeds

Marestail	+
Henbit	+
Mustards	+
Bindweed	+
Waterhemp	+
Smartweed	+
Many others	+

## Get Fast Broad-Spectrum Burndown

### Make Your Burndown Program Work Harder

- Rage D-Tech helps you improve the control of tough broadleaf weeds
- Acts fast — you can actually see its effects with a few hours. You can plant earlier
- Two modes of action that work to do a more complete job of burning down broadleaves, plus is an important tool in a broadleaf weed resistance management program
- Tank mix with glyphosate to burndown both broadleaves and grasses
- Flexible crop rotation to soybeans and corn
- An economical burndown program that gets fields ready for planting

Don't let your burndown program slow you at planting time

### Features & Benefits:

- Consistent broadleaf burndown means you get more for your money
- Fast-acting means you can plant sooner to achieve the highest yield potential
- Two modes of action becomes part of your resistance management program
- Excellent tank mix partners with glyphosate means you get a complete broadleaf and grass burndown to save you time
